## SMALL TRIPS IN AT T WHARF.

Price Rule Low Today and  
Trade is Not  
Brisk.

Just an even half dozen of groundfish arrivals were at T wharf, Boston, this morning, but there was little doing in the fresh fish line with prices correspondingly low for the week-end.

The trips reported are schs. Rose Dorothea, 22,000 pounds; Annie Perry, 30,000 pounds; Frances P. Mesquita, 26,000 pounds and two swordfish; Thomas J. Carroll 33,000 pounds; T. Brundage, 19,000 pounds; Juniata, 24,000 pounds.

Haddock sales were at \$1.50 a hundred; cod, \$2 to \$2.50 right through; hake, \$1.65 to \$2.60; pollock, \$3.50 and fresh tinker mackerel, one and one-half cents a pound.

### The Seal Agreement.

Canada is to receive a percentage of the seals which the United States is now killing on the Pribiloff Islands. A steamer will shortly be sent to St. Paul to bring the pelts south to San Francisco to be consigned to the London market for sale. It is not known how many seals will be killed this season, and the share to be paid to Canada cannot therefore be estimated. If a similar number are taken as last season, when over 12,000 seals were killed by the Government officials, the Canadian Government will receive in the neighborhood of \$30,000 as its share of the proceeds. The amount to be received by Canada will increase with every succeeding year, as with hunting at sea stopped, the seal life will increase rapidly on the rookeries and the killing will be consequently increased each season. Under the terms of the treaty made last July, and brought into force on December 15 last, the Dominion is to receive 15 per cent. of the seals killed on the Pribiloff Islands, 20 per cent. of the pelts taken from Robben bank, the Japanese rookery in the Okhotsch sea, and 10 per cent. of the seals killed on the Commanderofski Islands by Russia.

### Bait at Pubnico.

There is plenty of bait at Pubnico, N. S., and vicinity, according to a despatch received here this morning, and several crafts have baited there recently.

### Week's Receipts At T Wharf.

A total of 58 trips of groundfish was landed at Boston last week aggregating 1,856,650 pounds against 46 arrivals and 1,408,300 pounds for the corresponding week of last year.

## CANNERS TAKE MANY TINKERS.

Several Fares, Price Down  
to Cent and Half  
a Pound.

Nearly 70,000 tinkers were landed at T wharf, Boston, this morning, four of the seiners and two steamers securing hauls on Middle bank, where the great body of fish seem to be showing up just about now.

Sch. Lucania, Capt. Martin J. Welch and sch. Mary E. Harty, Capt. Charles Maguire, are reported with 20,000 each. Sch. Constellation has her second trip of the week, being in with 6000 tinkers, while sch. Veda M. McKown had 9000 tinkers.

Steamer Ethel has about 9000 fish in count and steamer Naomi Bruce, 16 barrels.

Owing to the large glut of tinkers the past week, prices dropped at Boston this morning to one and one-half cents. The canners are taking considerable of the fish.

### Shipped Mackerel by Autos.

When T wharf was opened at 7 o'clock yesterday morning, three of Thomas E. Reed's large auto trucks were there and were soon on the wharf with their freight of 80 barrels of fresh tinker mackerel which were sent over the road from here during the night.

The shipment was made by the firm of William B. McDonald & Company and proved a profitable financial venture, it is said. Shipping mackerel by automobile while an innovation in the fish business, is nevertheless, a successful experiment.

### Mackerel Catch and Imports.

The total salt mackerel catch of the fleet to date is 2068 barrels against 5552 barrels for the same period of 1911.

Salt mackerel imports received at Boston to date are 5031 barrels against 1874 barrels last year.

The total number of barrels of fresh mackerel landed by the fleet this year has been 14,705 barrels. In 1911 it was over twice that amount, or 31,068 barrels.

Fresh mackerel imports received at Boston this year have been 3136 barrels against 3798 barrels during the same period of 1911.

## TWO MACKEREL FARES AT BOSTON.

a Pound at T Wharf  
This Morning.**

Two trips of fresh mackerel at Boston is the only mackerel news to amount to anything since Saturday. Steamers Philomena and Water Witch landing 35 barrels and 50 barrels of tinkers taken on Middle Bank.

Owing to the small lot of fish in the market, wholesalers paid five cents a pound at Boston this morning, the trips being readily disposed of.

Tinkers are showing up around the coast and a few have been taken recently in the trap at Salt Island.

### Getting Rid of Mosquitoes.

To encourage a virile crusade against mosquitoes N. M. Osaka, a Japanese merchant of Newark, N. J., has contributed \$4,000, to be distributed among Newark school children this summer for catching goldfish minnows. These tiny fish, it seems, abound in the swamps west of Jersey City, while the abandoned Morris & Essex canal at Jersey City is filled with them. The school children are to collect the goldfish minnows in nets and distribute them under proper direction in the stagnant pools in and about Newark.

### Fish Men to Meet.

The American Fisheries society will hold its forty-second annual meeting September 3, 4 and 5, 1912, at Denver, Colorado. The headquarters for the meeting will be the Albany hotel.

### Fish Plentiful Off Jersey Coast.

Fish are so plentiful along the New Jersey coast that in some places fishermen are throwing the fine food away, according to the Atlantic City "Press." One day this week more than 1000 pounds were thus treated at Launch Haven. Capt. John L. Bailey, who runs a pleasure boat to that place, is quoted as follows: "It is a crime, with the present cost of living, to see the fish that are thrown away daily at Launch Haven. The fishermen get them, bring them in and sell as many as they can, but the supply far exceeds the demand. There is no recourse other than to throw them away, and daily hundreds of pounds of fish are cast away, worthless."

## MACKEREL FLEET GONE EASTWARD.

**Run of Larger Fish Strike  
in on Middle  
Bank.**

The bulk of the seining fleet that have been cruising on Middle Bank where the scho's of tinker mackerel have been suwving up the past two weeks have left for down east, but apparently another run of fish have struck in, for six crafts made some nice hauls yesterday and are at Boston today.

The best trip of the morning is sch. Pinta, Capt. Douglas McLean with 200 barrels. The others are the steamers, the Margaret D., having 40 barrels, Nashawena, 125 barrels, Ethel, 40 barrels, Philomena 8000 and Lois H. Corkum, 14,000 each in count.

The fish are growing and if they hang on for a month or six weeks longer, they ought to be a good size at the end of that time.

Many of the skippers who are hanging to it believe it will be a good mackerel fall and look for some large fish to show up.

Fresh mackerel were in good demand at T wharf, Boston, this morning, the wholesalers paying five cents a pound for the fares brought in.
